“ My heart is so sad today as I learned my friend passed away.

She was my family when I had no family and she will always be in my heart as family.

This woman was amazing. We shared so many memories together. Holidays as my son was a child and birthdays and road trips..... Jane, remember the trip we all took to Kentucky when John was in the hospital? Mother, you, Monique, Johnny Lee when he was a baby and I was "THE DRIVER." Oh my lands! What a trip! I was so tired and we stopped at a gas station for gas and a break, then left. Only one problem...I drove off and forgot about Monique!!! I would have rather took a beating than to turn around and go back. She swore we done it on purpose but of course we didn't! She was standing there with her hands on both hips!!!! It took her a while to forgive all of us for that one but she finally did. So many good times to remember...

She was my friend and I will miss her.

I am grieving with all of you...
