“ *Bev and I sure enjoyed corresponding about our common family connections. We were both descendants of Ruben Harris. Ruben is a maternal link for me. Both of Ruben's wives connect to my paternal line.*

Will never forget the help Bev provided and will always remember his letters and thoughts.

*Truly miss you old friend,

“ *I remember Dr. Beverly Harris very well! In 1966, I was a junior at Bolivar High School and became very interested in playing tennis. BHS did not have a tennis team at that time but I met Bev Harris on the Southwest Baptist University Tennis Courts and he taught me a great deal about playing the game of tennis. In later years, Bev Harris and I continued playing tennis and I was always amazed how "this old guy" could play tennis. I was lucky enough to beat him a few times but Bev generally always won when we played. Now I am the age he was then, and I'm still playing tennis. When I'm on the court I think of Dr. Bev Harris and how kind he was to teach me the game of tennis. He was a wonderful, kind, and brilliant man and will be greatly missed.*

“ As a Freshman at Southwest Baptist, Dr. Harris was my algebra instructor, and as an older student who had been out of school for five years, I struggled in the class. Dr. Harris was very willing to help me (and many other students) to be successful and told me to call him anytime of the day or evening for help with homework. I spent many hours on the phone and managed to pass the class, thanks to his caring attitude. He has always been involved in the Bolivar community, responding to the needs of others. Rest in peace...you have finished the course and kept the faith.
