“ I'm very sorry to disturb y'all but I'm too excited and elevated right now to not say thank you to the online user that recommended a hacker (RECOVERYAB ET@GMAIL.COM)

*I hired them for a very private and difficult matter of helping me hack into my spouse's phone and social networks and some other personal stuffs and they far exceeded my expectations. helped me get the info (whats-app, Facebook, text messages, call logs etc) faster than I had imagined. The first time we spoke, I had a very long phone consultation with the team and they gave me all options that they thought could resolve my case, and they even recommended I try other options before hiring them. which shows that they're honest. I decided to hire the team and I am glad I did. they're a fantastic investigation group. If you need professional, reliable and efficient hackers, then you should contact this team.*

“ ■ "PROTOCOL SHIELDERS" ■

Hello,

*I am COREY RODRIGUEZ by name, THE CEO of protocol & cyber-sheild hackers.*

*In this message, we will explain how you can almost avoid SCAMMERS and stay safe, plus how our organisation works.*

*Read it carefully!!*

*Its reading will not take more than 10mins.*

*We kindly URGE you to not respond without have read the entire text. Those who mail without have read everything, ask questions that are answered here!!*

**WARNING:**

***MOST HACKERS YOU SEE HERE ARE FAKES  
AND INCONGUROUS!!***

*It tears me up when we receive bitter emails for Jobs with complains from most clients with hacking issues about past SCAMs by uncertified fake hackers like most you see here, which is disappointingly inadequate, leaving their mess for us to deal with eventually (WE DON'T MEAN TO BRAG ABOUT THAT).*

***HOW WOULD YOU KNOW??***

*You won't know until you fall a Victim but can be attentive to potential danger, error or harm if you take note of these:*

*1, you see uncertified email accounts carrying numberings like "iamhacklord1232@(gmail,yahoo or hotmail.com"*

*pls flee from them, BIG SCAMMERS.*

*They take your money and never do your job!!*

*2, you see posts like "do you need to spy on spouse?"*

*All fake! , just a way to lure you toward getting ripped OFF!.*

3, *posting fake testimonies and comments to trick you into feeling save and secured.*

*Pls endeavour to ignore!!*

4, *beware as we urge you not to make respond to any "IVAN HONG" (impersonating with our post pretending to work for us) with this exact post.*

■ **VERY IMPORTANT** ■

*For years now, We've helped organisations secure data base, so many sites has been hacked for different reasons of Job kinds. "CLEAR CRIMINAL RECORDS" & "iPhone HACK" of and in short timing hacked petty cyber sites accounts like Skype, Fb, WhatsApp, Tinder, Twitter!!, FLIPPED MONEY, LOAD CCs and vice versa but these are significant experiences a good and effectively recognized organisation must firmly ascertain.*

■ **OUR "AIMS" HERE** ■

*Are:*

1 ■ *to assign a qualified agent of specific rank to particularly any sort of cyber issues you intend dealing with in short and accurate timing.*

2 ■ *to screen in real hackers (gurus only) in need of job with or without a degree, to speed up the availability of time given to for Job contracts.!!*

*Thus an online binary decoding exam will be set for those who seeks employment under the teams Establishment.*

*write us on:*

“ I well remember when Bob pastured his horses in Daddy's pasture...right behind our house in town. He always let me pet them, and I loved having them there. Bob was very nice to what, I imagine was sometimes an annoying little girl. We will be out of town at the time of the funeral...please accept our expression of sympathy. The world would be a better place if there were more people like Bob Hacker, who gave a little girl such happy, enduring memories.
