“ *Bub. I Miss you so much. Thank you for sharing these last few years of your life with me. Even though I hurt now but I seen you struggle day in day out with your pain from all your health problems. You tried to deal with it the best you could, even on days you wanted to say the heck with it. I can steel here your voice and enjoyed the conversations we had. You wanted so much to find something you could do so I let you put my pt cruiser back together, it took you a while you were so proud that you actually got it done. I was so proud of you too watching you struggle and loosening them bolts so I could get them off for you, cause your hands were so big. You are a very special brother and always will be I Love You. Your Sis, Georgia*
