“ *When I was a little girl Aunt Jodi would bring my siblings & I out to your house during the fall to pick up walnuts. I remember Mr. Babyak watching us from his front door, with a cup of coffee in his hand. As I grew older I would do the readings for mass. He would make me practice and practice. I used to think he was soo mean making me read this reading over and over. He would make me break and look up at him at every period. Now, as an adult I have excellent public speaking skills, thus I credit him for. Mr. Babyak was a fabolous man and will be greatly missed. May God bless you and your family during these times of mourning, and know that you are the prayers of us Sloans. God Bless you. (Mary Jo Sloan's granddaughter)*
