“ *I worked with Mary at Sac Osage Hospital. I worked in the Lab. She was great to work with and an exceptional nurse. I had to be admitted one time with severe dehydration. A new RN tried 5 times to get an IV started. After the 5th time I said no more, go get Mary Locke, she will get one started. They did and she did on the first stick. Mary Beth Greathouse*

Mary Beth Greathouse - June 01, 2020 at 05:44 PM

“ *So very sorry for your loss and pray that you all have the comfort that you need in this difficult time. I have many beautiful memories of Mary, and will cherish each and every one of them. She was a wonderful woman inside and out, and was so blessed to have been one of the many whose life she has touched.*
