“ *My mom was a wonderful mother and grandmother. It takes very special people such as my parents to take in their grandchildren even with mom's failing health. I am thankful for the time that I had with her. I will miss her every day of my life and I know that she is in heaven with God and no longer in pain. I love her with all my heart and soul. I want my dad to know how sorry I am for his loss an that I love him with all my heart and soul too. I know that it is and will be very hard on him and if there is anything I can do just let me know.*

“ I am sorry that I was not able to get here in time to see you before you started your heavenly journey. I will always remember all the fun we had when we were younger and when we used to go to the navy base in Long Beach, Ca to check out all the boys. I will also remember the first time you were pregnant and I was driving you around and we hit a bump after warning me that you would pee in my car. I will remember the times we spent playing scrabble and you would challenge my made up words. And when we played cards I will remember your laugh, smile, and don't give a heck attitude and taking each day by day instead of looking into the future. I will dearly miss you and we will be together again someday. You will always be my sister, Poncho, and my best friend. Love your older sister/Cisco Kid.
