“ Ron remodeled our house in 2009 and that led to many other extensive projects over the years because he shows up and works hard and could figure out most any problem that we encountered along the way. He became a good friend over the course of the remodel and other projects. We would always find something to laugh about. He will be missed and I will remember him every time I see the projects he completed for us. Doesnt seem possible that Ron is gone.

It will be hard to not pick up the phone and ask his advice on something we want to do.

I believe God has another mission for him and his time was up for his earthly assignment. A job well done Ron, we miss you already.

Lived in the same neighborhood growing up, attended church together, later in life we worked together in the Texas Oilfield, so very sorry to learn of his passing. A very talented carpenter and mechanic, he built a nice hot rod back in the day. RIP my friend.

Thank you for the heartfelt words about Ronnie and the impact he had on your life.

I know how highly he thought of you and was proud to call you a friend. I especially remember the time he built the large air conditioned cat house. He got a big kick out of that project

Your kindness to Ronnie has brought comfort to his family. Thank you.

“ I have so many fun memories working with Ron over many years. There was never a day that we didn't laugh at each other over something. I know Terri and family have a huge loss here, but the community has lost the best tradesman I know. There are so many beautiful projects standing today because of Ron, he will not be forgotten. Best wishes to the family and other friends.
