FS

“ Virginia and I have been friends for 53 years , we had some fun times from 3rd grade up. We always had the same crushes on the same boy in school but neither one of us ended up with him. We were there for each other in good times and bad . We shared our parents, our kids and some of the things they got into and did as the kids were growing up. We could talk and visit in person for hours. We had many adventures together with our kids and spouses and even our parents. The best story yet is of the dogs that chased us 2 girls in the park bathroom and we were so afraid of being attacked that Virginia parents had to pull up to the door just so we would get out of the bathroom. Everyone laughed at us then and some still did . We shared a lot of memories together growing up and within our families. We joked about things that we still wanted to do in life but other things got in the way and we didn't get to do them but I carry the memories of what we talked about doing and won't ever forget them. I miss my best friend, sister and life is going to be hard to go on with you not here in this world. I'm just glad that I have the honor and pleasure of saying that you Virginia are my friend. RIP and I'm glad that you are no longer in pain you will be and are greatly missed wish you were here still my friend. My pain is heavens gain.
